

[illegible]

time he expects them to be signed for "in good condition," and responsibility to end as far as he is concerned. INVISIBLE VARIATION IN SIZE OF ARTICLES.—PIPES, as well as other things contained in the lists, may vary more or less from the stated dimensions and weights; they are, however, guaranteed to be true in weight and strength. SPECIAL ORDERS.—If you wish to have your PURCHASES NOT TO PICK THE ARTICLES, which are sorted "ACCORDING TO CUSTOMS OF THE BRICK AND TILE TRADE," as usual drawn out of the coveys, and having been placed upon the works or other premises in the usual manner, they are not to be picked, but supplied from the stock, and if you desire to have them packed in cases, such extra charges will be supplied from, provided they do not exceed any of the articles. NEWLY-DENIED ARTICLES AND ALTERATIONS SUBJECT TO EXTRA CHARGE FOR new moulds or altering others, and for extra labour in picking, picking, dividing, or altering any article from the established form for REFUSAL IN CREDIT, SPECIAL CONTRACTS, AND PAYMENT, must be regulated principally by the nature of the disbursements in the trade, and partly by such special bargains as the manufacturer may enter into. PRICE, WEIGHT, and other conditions are prompt and without alteration, and all orders are to be filled at once, unless otherwise specified. Payment to be made punctually and without statement, according to such special agreements, and generally in all other cases the price as per lists respectively, as well as charges for new moulds—orders are to be paid for on or before delivery in cash, without discount, premium, or abatement, or other consideration. ALL ORDERS MUST BE ACCOMPANIED BY A CHECK OR ORDER ON THE BANKER'S ACCOUNT INDISPENSABLE IN SPECIAL BARGAINS or any other instance where goods are to be delivered on credit. They shall be paid by: LETTER MAY BE ADDRESSED TO either No. 4 Wharfedale Street, London, City-road Basin, London; or to The Tiles, Tunstall, Staffordshire Pottery.

"Every thing tending to facilitate the sweeping of chimneys by machinery is now peculiarly deserving of public attention. We have been much interested by the report of a newly-invented material for lining flues, invented and manufactured by Mr. Thomas Peake, of Tunstall, Staffordshire, whose various important Term-Metallie improvements are so popularly known through National's Encyclopaedia. This species of piping is so exceedingly cheap that it will cause no revolutionary additional expense in the construction of chimneys; it causes no injury from action of acid and salt presents a perfectly smooth channel for the sweeping machine;—it also requires less frequent cleaning than a common chimney, as it affords no lodgment for soot."—Staffordshire Adver. Feb. 19, 1841.
